Our company, Axone Business Solutions (Pvt) Ltd specializes in the selection, implementation, and support of Microsoft Dynamics GP to solve the needs of small and medium – sized businesses that work in the business sectors of Manufacturing, Distribution, Education, Not for Profit and Professional Services.

Axone Business Solutions (Pvt) Ltd helps customers in the area(s) of:

- **Software and License Procurement:** *We resell Microsoft Dynamics GP Licenses based on your business needs.*
- **Implementation and Project Management:** *We organize and manage your Implementation to ensure that you derive the best possible value from Dynamics GP.*
- **Business Process Coaching:** *We assess your current business processes and recommend alternatives that leverage modern practices in ERP technology.*

These capabilities result in a *maximized software investment, an improved Total Cost of Ownership of Technology and better adherence to company governance.*

Through these capabilities customers can enjoy the following benefits

- Maintain tight control of your finances and manage them with a high level of efficiency and accuracy
- Simplify and automate routine and repetitious functions, so your employees can focus on more critical tasks to drive your business forward.
- Increase efficiencies in distribution to improve customer satisfaction and reduce the cost of doing business.

Unlike our competitors that add additional layers of complexity and do not offer complete life-cycle services we take less time to implement through our use of Microsoft endorsed implementation methodologies (**Sure Step**), offer a product that is familiar to you and your people (**looks and works like Outlook**) and has out of the box workflow capabilities so you can immediately begin eliminating manual, inefficient processes.

To learn more about Microsoft Dynamics GP, contact us today. We look forward to hearing from you!

Imtiaz Ahmed,

**Sr. Consultant & CEO,**
